

HOW TO SIZE

Determine your proper hand size before ordering gloves. Remember tight fitting gloves can be hazardous. Use a tape measure to find the circumference of your hand around the palm area. This measurement, in inches, is closest to your actual glove size. For example, 7" is equal to a size 7 glove. Sizes may vary among styles and manufacturers. Except where noted, gloves are sized according to men's hands. Use the chart provided to help find your glove size.
